2023 ZRA CONFERENCE | OCTOBER 2-7

south bend, indiana

Tracks Software Workshop
Oct. 4, 2023
2:45 p.m. to 4:45 p.m. (EST)

Tracks Software welcomes current users to participate in a skills-building workshop at the 2023 ZRA Annual Conference.

Tracks representatives will provide training on the newest features; answer participants' questions, and provide guidance for making the best use of the software features at your facility.

Topics are flexible, but expect to hear about:

- Events and Transactions
- Research Studies
- Progress with Egg Management
- Pocket Tracks Road Map

There will be plenty of opportunities to learn from other Tracks users, provide feedback on features, and make requests for future development.

This is a great opportunity for users to become more proficient at using this comprehensive application.

Of course, non-users are welcome to attend to learn more about Tracks, and with the new option for individual per-module licensing available now, non-Tracks users may find this a valuable time to investigate some Tracks features that have only recently become available for any aquarium or zoo to take advantage of.
