

Let's visit Chattanooga! Join us for this full day trip that will take us to both the incredible Chattanooga Zoo and the famous Tennessee Aquarium on Saturday October 15th.

Our day will begin at the Tennessee Aquarium where we will trace the path of water from the mountains to the sea. Come face-to-face with the fascinating native animals that live in our backyards and the amazing creatures that thrive in some of the most remote locations on Earth. The Tennessee Aquarium celebrates the rich biodiversity of the Southeast through exhibits and is actively engaged in preserving and restoring that biodiversity through work in the field. The Aquarium's research arm, the Tennessee Aquarium Conservation Institute, has a focused expertise in restoring freshwater ecosystems and helping people appreciate the need for environmental health. Don't miss out on the exciting opportunity the Tennessee Aquarium is offering our attendees to see the inner workings of this amazing institution!

After lunch, our adventure will continue at the Chattanooga Zoo, where exhibits are specifically designed to bring the animals up close to you! With over 500 animals exhibited, representing over 200 species, the second half of our day is sure to please this zoo-loving crowd! The Chattanooga Zoo staff is excited to welcome ZRA attendees. They have some special opportunities lined up for us and are offering attendees a generous discount in that coveted gift shop! Come along to see why everyone is calling the Chattanooga Zoo, "the Best Little Zoo in America!"
